Incorrect fitting Spectacles and Eyeglasses.

your eyes, but are you sure that the frames which contain the lense a correst fit in every way? (which is rarely ever the case) If not, you are deprived of that comfort that is expected, and that you should have from your glasses, as in every instance of misfitting frames they do incalculable injury to the eyes. So do not neglect this very important point just because you do not fully understand it or realize their bad effects. It is not every optician who can the glasses well; that can fit frames to the face and eyes correctly. It requires a certain amount of mechanical skill, which all cannot sequire. Now as accuracy and competency in workmanship, as well as truthfulness, is characteristic of my 28 years of success in business—surely my house ought to be the safest now to patronize, and for all who need anything
